3. Evaluation: a means to verifying global indicators with local realities

Changing with the World

UNDP STRATEGIC PLAN: 2014-17

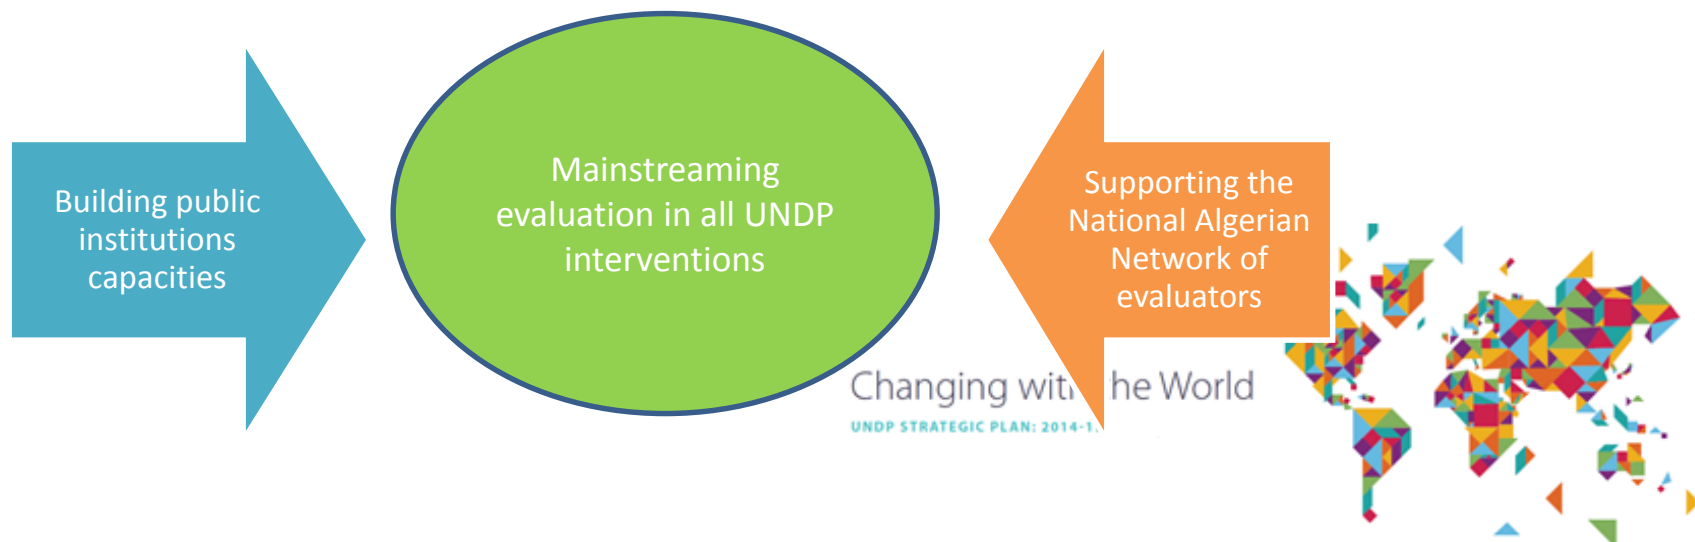

# IEO, Assessment for Development results for Algeria

# Evaluation a key component of Algeria- UNDP Country Programme 2016-2020

- Preparatory awareness raising workshop was organized in 2015, as part of the International Evaluation Year ;
- UNDP Programme on Strengthening National Capacities for Evaluation:

# Evaluation: a means to verifying global indicators with local realities

- Drawing on previous experiences:
  - Monitoring progress towards MDG's demonstrated in Algeria a gap between data and local realities and post-2015 consultations with all stakeholders showed a discrepancies in perceptions;
  - Support provided for producing the National Human Development Report:
    1. Strengthened national capacities to measure development policies;
    2. As capacities evolved, it allowed a critical debates on indicators and how to they can be used to monitor effective development results;
    3. Highlighted that reliable indicators is the backbone of evidence-based evaluation;
    4. Initiated a reflection on the role of evaluation in improving policies and contributing to achieving international goals.

Changing with the World

UNDP STRATEGIC PLAN: 2014-17

# Moving towards SDG's

- Launching of Sustainable Development Goals: an opportunity to close the gap between indicators and realities
- Evaluation helps to improve policies that will contribute to localizing the SDG's

# Conclusion

- UNDP can use RBM and internal management processes to show case good practices to countries;
- UNDP 2016-2020 helps building national capacities for evaluation including by identifying independent national expertise and develop partnerships with government actors;
- Link national development priorities with SDG's and use evaluations to improve national policies that will contribute to localizing SDG's.
