How we want to achieve this – short term priorities

- ✓ **A better linkage between strategic planning process and the monitoring and evaluation process** – the GD on the national strategic planning framework is to be approved by the end of 2019;
- ✓ **Strengthen intra- and inter- institutional cooperation in terms of monitoring data and information needed** for the planning/monitoring processes – process and way that will ensure the cooperation are described in the mentioned GD;
- ✓ **Develop capacities for monitoring, reporting and evaluation** in ministries and other public authorities – after approval of the GD, trainings are to be organized.
