1. Approaches for China's Implementation of the 2030 Agenda

- Synergy of Strategies
- Institutional Guarantee
- Social Mobilization
- Resource Input
- Risk Management
- International Cooperation
- Oversight and evaluation

1. Approaches for China's Implementation of the 2030 Agenda

■ Oversight and evaluation

- Conduct reviews of its implementation efforts simultaneously with annual assessment of the progress in the 13th Five-Year Plan.
- Participate in follow-up reviews at the international and regional levels.
- Strengthen cooperation with the United Nations System in China and other international organizations.

2. Challenges and ways forward

■ **Insufficient capacity of Chinese evaluation community in terms of:**

- Understanding to 2030 Agenda and SDGs,
- The number of qualified evaluation organizations and professional evaluators,
- Evaluation tools and instruments.

■ **The way forward:**

- Capacity building
- Sharing of international best practice

2. Challenges and ways forward

■ lack of a comprehensive data collection system:

- Many SDGs' indicators are not in the existing statistical system,
- High cost and low timeliness of data collection.

■ The way forward:

- Make full use of ICT tools
- Develop infrastructure of big data analysis

2. Challenges and ways forward

■ quantitative evaluation:

- Are all the SDGs goals and indicators SMART?
- > 50% not.

■ The way forward:

- Rely on countries to develop specific quantitative indicators which is reflecting country's context as well as accepted by common international standards.
